I'm an **inter-disciplinary product designer**, a creative strategist, and a working artist. I **craft experiences** and design systems and processes to work efficiently and effectively.

Collaborative Product Designer with industry experience in the full end-to-end product design life cycle from exploration to implementation, UX and UI design (processes, patterns, and best practices), multi-brand design systems and information architecture.

My top skills include expertise in Adobe CC, MS Office 365, prototyping (Adobe XD, Invision, Sketch, Figma), UX/UI design, strategy and research, design ops, and web flow development, for IOS and Windows environments.
